Deir Ezzor – Air Force of the Syrian Army directed strikes on gatherings and positions of ISIS terrorists in the vicinity of Panorama area, al-Iman oil station, al-Tharda, al-Tharda roundabout, Alloush Hill, al-Erfi neighborhood and al-Jneina village.

SANA reporter said that many terrorists were killed or injured and their vehicles were destroyed during the army's strikes.

The reporter pointed out that army units clashed with terrorist groups of ISIS organization that attacked military posts in [the] vicinity of Panorama area where many terrorists were killed and others fled away.

Syrian Arab Army (SAA) Arrives at Iraqi Borders Northeast of al-Tanf

By Arabi Souri 11 June 2017

Source: [Syria News](#)

The Syrian Arab Army and its allies managed to outmaneuver the US forces illegally positioned at al-Tanf border crossing and reached the Syrian – Iraqi borders northeast of Al-Tamayz to the surprise and dismay of the real axis of evil.

Despite the continuous [attacking by the US forces and sustaining direct losses](#), the Syrian Arab Army (SAA) and its allies pushed forward and reached the borders with Iraq outsmarting the US and its terrorist backed groups it calls '[moderate rebels](#)' and tightens the noose on [ISIS](#), Nusra Front

and other branches of the [FSA](#) Free (from) Syrians Army, the umbrella the US and its followers used to recruit tens of thousands of terrorists from all sides of the planet and sent them to Syria.

The move, completed on June 10, 2017, is just the first phase of the Syrian Desert Operations as the General Command of the Syrian Arab Army and Armed Forces mentioned in its statement.

Syrians had other thoughts, enduring what no other nation can alone and by themselves for the first 3 years until their allies started to assist, they managed to regather their strength and turn the table on the evil powers, restoring and cleaning large areas and [strategic cities](#) and districts from the filth of [ISIS](#) and its likes.

The regime of Donald Trump, following the steps of his predecessor the Nobel Peace Laureate and war criminal Barack Obama, was trying its best to isolate the Syrian forces and pushing them away from the borders with Iraq inside Syrian territories and against all international laws and in blunt violation of the sovereignty of the Syrian Arab Republic. The attempts of the [USAians](#) and their servants using [ISIS](#) and other terrorist groups was mainly to [divide Syria into a number of religious and ethnic based entities fighting each other](#) like what they've accomplished in Libya.

Once connected with their Iraqi brothers on the other side of the borders, whom also have achieved major gains against [US sponsored ISIS](#), the plot to divide this region will be in history books forever. The separatist Kurds, however, must watch and understand the new balance in power and must not depend on the promises of their US and Israeli buddies of support in their quest to steal large lands in the north and northwest of Syria and connect it to the land they stole in Iraq and now want to carry out a referendum on 'independence' from the central state there. Kurds throughout their history have always taken wrong decisions and aligned themselves with

the wrong powers, we hope this time they'll realize their mistakes before it's too late.
