

Trump Forces and ISIS Attack SAA Outposts in Al-Bukamal

Source: [SyriaNews](#)

Trump Forces along with ISIS (ISIL, Daesh, al-Qaeda in Iraq and the Levant) terrorist groups carried out a coordinated attack against an SAA outpost in Al Bukamal area, southeast of Deir Ezzor.

The 'ISIS Airforce' aka 'Illegal International Coalition to Support ISIS' bombed an artillery post of the Syrian Arab Army in the Sukkariyeh area, west of Al bukamal.

US-led coalition attack was at 11:30 pm yesterday Saturday evening, and caused the injuring of two SAA soldiers and the destroying of the artillery cannon.

Simultaneously, herds of ISIS terrorists carried out an attack against Syrian Arab Army posts positioned in the area from the Baghouz axis, where the Trump Forces Murdered 5 children and 3 women end of last month, east of the Euphrates adjacent to the borders with Iraq.

The SAA units operating in the area have repelled US-sponsored ISIS attacks and killed and injured most of the ISIS attackers.

This US-led illegal coalition attack against a Syrian Arab Army unit is usually accustomed with attacks by ISIS terrorists or to secure their retreating terrorists from battlefronts with the SAA troops.

A previous similar attack by the US-led Coalition on SAA units in Al-Bukamal area was merely 8 months ago, in similar tactics and purposes by the illegal Coalition.

When the US-led illegal Coalition cannot attack SAA or any of

its allies posts inside Syria and protecting the Syria people, the Coalition murders the Syrian people directly. A long list of such crimes against humanity committed in the past few months in the province of Deir Ezzor alone of such nature.

This comes in addition to previous war crimes committed by the US-led coalition in Raqqa city which was 'completely obliterated, and not 'liberated from ISIS' as they claimed from ISIS.

The Syrian Arab Army and its allies were on the verge of cleaning the entire province of Deir Ezzor during their swift advance in the region in late 2017, before the US and its cronies in the illegal coalition jumped to the rescue of ISIS and drew a line to prevent the SAA from chasing ISIS, with the Russian approval, one of the fatal Russian miscalculations in the Syrian Crisis.
